

## **Obituary**

### **Khalid Nasir Al-Mayah 1969-2008**

Writing an obituary is a painful ordeal especially for our great loss Khalid. I wonder how to go on writing it effectively. I also wonder where to start, what to say, and how to say it eloquently.

Khalid Nasir Al-Mayah passed away to be with Lord on March 10, 2008. He was born in 1969 in Basrah, Graduated from Basrah Medical College in 1994. He got his FICMS (Neurosurg.) in 2001.

We knew him serving his country honorably as a great ambitious neurosurgeon, lecturer in the College of Medicine and as a manager of Al-Sader Teaching Hospital in 2003.

Khalid had a heart of gold. His love of God, colleagues and family was supreme. He survives by his wife and his two children as well as all the doctors in basrah who shall never forget him.

Thanks to everyone for your love, prayers, support, and thoughts throughout this hard time.
